Learning RStudio for R Statistical Computing Mark van der Loo, Edwin de Jonge

In Detail

Data is coming at us faster, dirtier, and at an ever increasing rate. The necessity to handle many, complex statistical analysis projects is hitting statisticians and analysts across the globe. This book will show you how to deal with it like never before, thus providing an edge and improving productivity.

"Learning RStudio for R Statistical Computing" will teach you how to quickly and efficiently create and manage statistical analysis projects, import data, develop R scripts, and generate reports and graphics. R developers will learn about package development, coding principles, and version control with RStudio.

This book will help you to learn and understand RStudio features to effectively perform statistical analysis and reporting, code editing, and R development.

The book starts with a quick introduction where you will learn to load data, perform simple analysis, plot a graph, and generate automatic reports. You will then be able to explore the available features for effective coding, graphical analysis, R project management, report generation, and even project management.

"Learning RStudio for R Statistical Computing" is stuffed with feature-rich and easy-to-understand examples, through step-by-step instructions helping you to quickly master the most popular IDE for R development.

Approach

A practical tutorial covering how to leverage RStudio functionality to effectively perform R Development, analysis, and reporting with RStudio.

Who this book is for

The book is aimed at R developers and analysts who wish to do R statistical development while taking advantage of RStudio functionality to ease their development efforts. Familiarity with R is assumed. Those who want to get started with R development using RStudio will also find the book useful. Even if you already use R but want to create reproducible statistical analysis projects or extend R with self-written packages, this book shows how to quickly achieve this using RStudio.

From reader reviews:

Bernadine Williams:

Now a day those who Living in the era where everything reachable by connect to the internet and the resources included can be true or not involve people to be aware of each information they get. How many people to be smart in obtaining any information nowadays? Of course the reply is reading a book. Studying a book can help individuals out of this uncertainty Information especially this Learning RStudio for R Statistical Computing book since this book offers you rich details and knowledge. Of course the details in this book hundred % guarantees there is no doubt in it everbody knows.

Virginia Benoit:

A lot of people always spent their free time to vacation or perhaps go to the outside with them family members or their friend. Are you aware? Many a lot of people spent that they free time just watching TV, or playing video games all day long. If you would like try to find a new activity here is look different you can read some sort of book. It is really fun for you personally. If you enjoy the book that you read you can spent the whole day to reading a guide. The book Learning RStudio for R Statistical Computing it is quite good to read. There are a lot of people who recommended this book. They were enjoying reading this book. When you did not have enough space to deliver this book you can buy the actual e-book. You can m0ore very easily to read this book out of your smart phone. The price is not too expensive but this book features high quality.

Santos Conrad:

Reading a book to be new life style in this yr; every people loves to examine a book. When you study a book you can get a lot of benefit. When you read publications, you can improve your knowledge, mainly because book has a lot of information in it. The information that you will get depend on what kinds of book that you have read. If you wish to get information about your analysis, you can read education books, but if you want to entertain yourself look for a fiction books, this sort of us novel, comics, and soon. The Learning RStudio for R Statistical Computing provide you with new experience in studying a book.

Paul Queen:

It is possible to spend your free time to read this book this e-book. This Learning RStudio for R Statistical Computing is simple to develop you can read it in the park your car, in the beach, train in addition to soon. If you did not get much space to bring the printed book, you can buy the particular e-book. It is make you quicker to read it. You can save typically the book in your smart phone. Thus there are a lot of benefits that you will get when one buys this book.
