Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library)

Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library)

The geometry of power exponents includes the Newton polyhedron, normal cones of its faces, power and logarithmic transformations. On the basis of the geometry universal algorithms for simplifications of systems of nonlinear equations (algebraic, ordinary differential and partial differential) were developed.

The algorithms form a new calculus which allows to make local and asymptotical analysis of solutions to those systems.

The efficiency of the calculus is demonstrated with regard to several complicated problems from Robotics, Celestial Mechanics, Hydrodynamics and Thermodynamics. The calculus also gives classical results obtained earlier intuitively and is an alternative to Algebraic Geometry, Differential Algebra, Lie group Analysis and Nonstandard Analysis.

From reader reviews:

Paige Robinson:

Typically the book Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library) will bring you to the new experience of reading some sort of book. The author style to elucidate the idea is very unique. Should you try to find new book to see, this book very suitable to you. The book Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library) is much recommended to you you just read. You can also get the e-book from the official web site, so you can easier to read the book.

Wendell Holloway:

Your reading sixth sense will not betray you, why because this Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library) publication written by well-known writer we are excited for well how to make book which can be understand by anyone who have read the book. Written within good manner for you, leaking every ideas and publishing skill only for eliminate your current hunger then you still question Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library) as good book not only by the cover but also from the content. This is one e-book that can break don't judge book by its cover, so do you still needing one more sixth sense to pick this kind of!? Oh come on your reading through sixth sense already alerted you so why you have to listening to a different sixth sense.

Christopher Palmer:

In this era which is the greater person or who has ability in doing something more are more precious than other. Do you want to become certainly one of it? It is just simple solution to have that. What you should do is just spending your time little but quite enough to get a look at some books. One of many books in the top checklist in your reading list is actually Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library). This book which is qualified as The Hungry Hills can get you closer in turning into precious person. By looking way up and review this guide you can get many advantages.

Harry Thomas:

Do you like reading a book? Confuse to looking for your best book? Or your book was rare? Why so many problem for the book? But any kind of people feel that they enjoy to get reading. Some people likes reading, not only science book but in addition novel and Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library) or even others sources were given knowledge for you. After you know how the good a book, you feel desire to read more and more. Science book was created for teacher or perhaps students especially. Those books are helping them to increase their knowledge. In other case, beside science reserve, any other book likes Power Geometry in Algebraic and Differential Equations (North-Holland Mathematical Library) to make your spare time far more colorful. Many types of book like this.
