## **Drug Resistance in Epilepsy: Lessons from Oncology - No. 243 (Novartis Foundation Symposia)**

Novartis Foundation

The object of this book is to gather together workers in the fields of epilepsy, those concerned with the basic science of resistance and the blood-brain barrier, and those with clinical experience of drug resistance in cancer, with a view to stimulating further work on drug resistance in epilepsy. Whilst resistance in cancer has been extensively studied, and trials of reversal of resistance have been undertaken, with some success, resistance in epilepsy has only just begun to be addressed.
