Many contemporary armed conflicts are fueled by young people, who, after peace accords are signed, remain both potential threats to peace and significant peace building resources. *Troublemakers or Peacemakers?* explores the contributions of youth and their multidimensional roles as political activists, soldiers, criminals, economic actors, peace activists, and community-builders. This volume breaks new ground in the importance it assigns to the political agency of children and youth in war zones. Contributors support their arguments and conclusions with original research based on intensive fieldwork in places such as Sierra Leone, Rwanda, Guatemala, Colombia, Angola, Northern Ireland, Bosnia, and Israel-Palestine. The leading scholars who have contributed to this volume contend that the puzzle of why peace accords succeed and fail can be better understood with the use of a multidimensional youth lens. *Troublemakers or Peacemakers?* is a vital resource for anyone interested in conflict resolution and the peace building process.
