Dementia touches so many families. Whether the diagnosis is Alzheimer's, Lewy Body or one of the many varied names dementia goes by, it still affects the same. Memories are lost, loved ones grieve and struggle to face this new reality. My siblings and I were no exception. Out of a family of seven children my mother began calling me for help. I thought my very capable mother was suffering from depression over the loss of my father a few short years before. But, the reality of my mother's condition and consequently my efforts to help her led to years of sadness, family turmoil, laughter and a relationship that took me by surprise. This book begins with my mother's life story as a member of the greatest generation and expands to include her last years. It is her story and our story as my mother began and ended her Slow Slide into Nothing.
