## **Australasian Nature Photography 10: ANZANG Tenth Collection (Australasian Nature Photography Series) South Australian Museum**

The bioregion of Australia, New Zealand, Antarctica and New Guinea possesses a unique natural heritage stretching back over 80 million years since the break-up of the great southern continent of Gondwana. The South Australian Museum and Australian Geographic focus on enhancing a general knowledge of this extraordinary legacy by encouraging photography of the region's nature and wilderness, and promoting an annual competition to find the Australian Geographic ANZANG Nature Photographer of the Year.

Australasian Nature Photography: ANZANG Tenth Collection presents the finest photographs submitted to the 2013 Australian Geographic ANZANG Nature Photographer of the Year competition. Each photograph is accompanied by technical information as well as anecdotes about how the picture was taken, which will stimulate yet further interest in the flora and fauna and their conservation in the region.
