This new collection of horror scenarios for the Call of Cthulhu role playing game features five tales of horror and the weird, set within the green and pleasant land of England. Each scenario focuses upon a different time period, from the streets of Victorian London to the far future when End is almost nigh. Although each scenario can be played as part of an existing campaign, they also come with a set of pre-generated player characters, allowing all to be played and run with the minimum of effort.
