reporter

Tony Schwartz says: "No one has described the path to wisdom better than Ken Wilber."

Wilber

examines the course of evolution as the unfolding manifestation of Spirit, from matter to life to mind, including the higher stages of spiritual development where Spirit becomes conscious of itself. In each of these domains, there are recurring patterns, and by looking closely at them, we can learn much about the predicament of our world—and the direction we must take if "global transformation" is to become a reality.

Wilber

offers a series of striking and original views on many topics of current interest and controversy, including the gender wars, modern liberation movements, multiculturalism, ecology and environmental ethics, and the conflict between this-worldly and otherworldly approaches to spirituality. The result is an extraordinary and exhilarating ride through the Kosmos in the company of one of the great thinkers of our time.
