Norbert W. Seidler

GAPDH: Biological Properties and Diversity: 985 (Advances in Experimental Medicine and Biology) Norbert W. Seidler

The book represents a comprehensive review and synthesis of the biomedical literature that spans over a half-century on a single protein called glyceraldehyde 3-phosphate dehydrogenase (or, GAPDH). Due to the protein's involvement in a vast array of cellular activities, GAPDH is of interest to the cell biologist, immunologist, virologist, biochemist etc. The protein has a significant role in fertility, cancer and neurodegeneration, suggesting that this book can be a vital resource for drug development. GAPDH function may provide insight into anesthesia. Furthermore, GAPDH is highly conserved meaning that the protein found in microorganisms, such as pathogens, remained relatively unchanged in evolution. Pathogens use GAPDH as a virulence factor, offering a unique challenge in developing anti-microbial agents that target this protein. To the evolutionary biologist, a book on the multi-functionality of GAPDH provides a focal point for a cogent discussion on the very origin of life.

From reader reviews:

Ilene Cody:

The feeling that you get from GAPDH: Biological Properties and Diversity: 985 (Advances in Experimental Medicine and Biology) may be the more deep you digging the information that hide within the words the more you get serious about reading it. It doesn't mean that this book is hard to comprehend but GAPDH: Biological Properties and Diversity: 985 (Advances in Experimental Medicine and Biology) giving you enjoyment feeling of reading. The article writer conveys their point in certain way that can be understood by anyone who read the item because the author of this publication is well-known enough. This specific book also makes your current vocabulary increase well. So it is easy to understand then can go together with you, both in printed or e-book style are available. We advise you for having that GAPDH: Biological Properties and Diversity: 985 (Advances in Experimental Medicine and Biology) instantly.

Elizabeth Sherer:

The guide with title GAPDH: Biological Properties and Diversity: 985 (Advances in Experimental Medicine and Biology) possesses a lot of information that you can understand it. You can get a lot of benefit after read this book. This specific book exist new understanding the information that exist in this reserve represented the condition of the world currently. That is important to yo7u to know how the improvement of the world. This kind of book will bring you throughout new era of the glowbal growth. You can read the e-book on your own smart phone, so you can read it anywhere you want.

Laura Ide:

People live in this new morning of lifestyle always aim to and must have the extra time or they will get lot of stress from both everyday life and work. So, once we ask do people have free time, we will say absolutely sure. People is human not just a robot. Then we request again, what kind of activity do you have when the spare time coming to you actually of course your answer will probably unlimited right. Then do you ever try this one, reading publications. It can be your alternative within spending your spare time, the actual book you have read is definitely GAPDH: Biological Properties and Diversity: 985 (Advances in Experimental Medicine and Biology).

Randi Adams:

That e-book can make you to feel relax. That book GAPDH: Biological Properties and Diversity: 985 (Advances in Experimental Medicine and Biology) was multi-colored and of course has pictures on there. As we know that book GAPDH: Biological Properties and Diversity: 985 (Advances in Experimental Medicine and Biology) has many kinds or genre. Start from kids until teens. For example Naruto or Private eye Conan you can read and believe that you are the character on there. Therefore not at all of book are usually make you bored, any it can make you feel happy, fun and unwind. Try to choose the best book for you and try to like reading that will.
