The Triple-Soy Decaf-Latte Era: How Business and Organization are Fundamentally Transforming

Alpesh M. Bhatt

As business people, we were raised in an era of Answers and Expertise, of Control and Predictability. While these elements will retain some level of importance in the future, they will simply no longer be enough. The advent of the Age of Access is rapidly transforming the fundamental rules of the game in ways that seem incomprehensible, if not outright ridiculous, from the perspective of the Industrial Era. The first in a series of 6 small format books designed to help you see your world through completely different filters, The Triple-Soy Decaf-Latte Era has been called a 'mini-MBA for the 21st Century'. With a short but compelling set of distinctions about our habitual understanding of business and how that understanding is being turned inside out, this work invites you to reconsider the very nature of your organization, and your role as a leader.
