Los temas que se exponen aquí son de interés para todo lector atraído por el concepto de aprendizaje a lo largo de la vida, y por la manera en que se han definido los términos "educación" y "cultura". Con base en una exhaustiva bibliografía, se revisan desde los enfoques históricos y tradicionales de la educación, pasando por la definición de cultura desde los modelos estático y dinámico, hasta relacionar los términos en un modelo alternativo de cultura que incluye una particular caracterización de la educación.
