Realpolitik: A History

John Bew

Realpolitik: A History John Bew

Since its coinage in mid-19th century Germany, *Realpolitik* has proven both elusive and protean. To some, it represents the best approach to meaningful change and political stability in a world buffeted by uncertainty and rapid transformation. To others, it encapsulates an attitude of cynicism and cold calculation, a transparent and self-justifying policy exercised by dominant nations over weaker. Remolded across generations and repurposed to its political and ideological moment, *Realpolitik* remains a touchstone for discussion about statecraft and diplomacy. It is a freighted concept.

Historian John Bew explores the genesis of *Realpolitik*, tracing its longstanding and enduring relevance in political and foreign policy debates. Bew's book uncovers the context that gave birth to *Realpolitik*-that of the fervor of radical change in 1848 in Europe. He explains its application in the conduct of foreign policy from the days of Bismarck onward. Lastly, he illuminates its translation from German into English, one that reveals the uniquely Anglo-American version of realpolitik-small "r"-being practiced today, a modern iteration that attempts to reconcile idealism with the pursuit of national interests.

Lively, encyclopedic, and utterly original, *Realpolitik: A History* illuminates the life and times of a term that has shaped and will continue to shape international relations.
