Introduction to Probability (Chapman & Hall/CRC Texts in Statistical Science)

Joseph K. Blitzstein, Jessica Hwang

Introduction to Probability (Chapman & Hall/CRC Texts in Statistical Science) Joseph K. Blitzstein, Jessica Hwang

Developed from celebrated Harvard statistics lectures, **Introduction to Probability** provides essential language and tools for understanding statistics, randomness, and uncertainty. The book explores a wide variety of applications and examples, ranging from coincidences and paradoxes to Google PageRank and Markov chain Monte Carlo (MCMC). Additional application areas explored include genetics, medicine, computer science, and information theory. The print book version includes a code that provides free access to an eBook version.

The authors present the material in an accessible style and motivate concepts using real-world examples. Throughout, they use *stories* to uncover connections between the fundamental distributions in statistics and *conditioning* to reduce complicated problems to manageable pieces.

The book includes many intuitive explanations, diagrams, and practice problems. Each chapter ends with a section showing how to perform relevant simulations and calculations in R, a free statistical software environment.

From reader reviews:

Edward Strobe:

Now a day those who Living in the era exactly where everything reachable by match the internet and the resources inside can be true or not need people to be aware of each information they get. How people have to be smart in acquiring any information nowadays? Of course the reply is reading a book. Reading a book can help men and women out of this uncertainty Information particularly this Introduction to Probability (Chapman & Hall/CRC Texts in Statistical Science) book as this book offers you rich facts and knowledge. Of course the information in this book hundred pct guarantees there is no doubt in it you know.

Mark Spears:

People live in this new moment of lifestyle always make an effort to and must have the spare time or they will get lot of stress from both lifestyle and work. So , when we ask do people have extra time, we will say absolutely sure. People is human not really a robot. Then we ask again, what kind of activity are you experiencing when the spare time coming to anyone of course your answer will certainly unlimited right. Then do you try this one, reading books. It can be your alternative inside spending your spare time, the actual book you have read is definitely Introduction to Probability (Chapman & Hall/CRC Texts in Statistical Science).

Michael Jones:

In this particular era which is the greater man or woman or who has ability in doing something more are more treasured than other. Do you want to become among it? It is just simple strategy to have that. What you should do is just spending your time not much but quite enough to possess a look at some books. One of the books in the top list in your reading list is definitely Introduction to Probability (Chapman & Hall/CRC Texts in Statistical Science). This book and that is qualified as The Hungry Inclines can get you closer in turning into precious person. By looking upwards and review this e-book you can get many advantages.

Larry Mason:

You will get this Introduction to Probability (Chapman & Hall/CRC Texts in Statistical Science) by browse the bookstore or Mall. Only viewing or reviewing it can to be your solve difficulty if you get difficulties on your knowledge. Kinds of this guide are various. Not only by written or printed and also can you enjoy this book by e-book. In the modern era like now, you just looking from your mobile phone and searching what your problem. Right now, choose your current ways to get more information about your reserve. It is most important to arrange yourself to make your knowledge are still revise. Let's try to choose correct ways for you.
