Weather Warfare

Weather Warfare Jerry E. Smith

In April 1997, United States Secretary of Defense William Cohen declared that there are terrorists at work who "... are engaging even in an eco-type of terrorism whereby they can alter the climate, set off earthquakes, volcanoes remotely through the use of electromagnetic waves..." Weather modification in the form of cloud seeding to increase snow packs in the Sierras or suppress hail over Kansas is now an everyday affair. Hundreds of environmental and weather modifying technologies have been patented in the United States alone-and hundreds more are being developed in civilian, academic, military and quasi-military laboratories around the world at this moment! This book lays bare the grim facts of who is doing it and why. The earth and the sky have themselves been turned into weapons! Underground nuclear tests in Nevada have set off earthquakes. A Russian company has been offering to sell typhoons on demand since the 1990s. Scientists have been searching for ways to move hurricanes for over 50 years-the same timeframe that took us from the Wright Brothers to Neil Armstrong. In this book, Jerry E. Smith picks up where his 1998 book about the High-frequency Active Auroral Research Program (HAARP) left off. He reports on recent developments at HAARP, including its possible connection to the crash of the Space Shuttle Columbia and what role, if any, it played in certain "natural" disasters, like Hurricane Katrina. Tackling the chemtrail controversy, Smith examines claims that particles called aerosols are being deliberately injected into the atmosphere. Edward Teller, father of the hydrogen bomb, proposed putting up a "sun screen" of aerosols to save the earth from global warming-is someone actually doing it? Numerous ongoing military programs do inject aerosols at high altitude for communications and surveillance operations. Could these include mind control or population control applications? Smith puts these technologies into context by examining the geopolitical conflicts that are driving their development from Globalization to the rise of Neo-Con Neo-Fascism.
