Modern French Grammar: A Practical Guide (Modern Grammars) Margaret Lang, Isabelle Perez

This new edition of the *Modern French Grammar* is an innovative reference guide to French, combining traditional and function-based grammar in a single volume. Divided into two parts, Part A covers traditional grammatical categories such as word order, nouns, verbs and adjectives and Part B is organized around language functions and notions such as:

- giving and seeking information
- describing processes and results
- expressing likes, dislikes and preferences.

With a strong emphasis on contemporary usage, all grammar points and functions are richly illustrated with examples. Implementing feedback from users of the first edition of the Grammar, this second edition includes clearer explanations and greater emphasis on areas of particular difficulty for learners of French.

This is the ideal reference grammar for learners of French at all levels, from beginner to advanced. No prior knowledge of grammatical terminology is assumed and a glossary of grammatical terms is provided. This Grammar is complemented by the *Modern French Grammar Workbook* Second Edition which features related exercises and activities.
